

Citrix XenApp Installation Instructions

Remove any version of Citrix client from the computer. (This will require Admin rights. If you do not have admin rights contact your IT representative.)

Click on the Citrix XenApp Web Plugin link from the SPAN Download site <http://spanweb.ext.dtsa.mil/downloads.aspx>

Click Save

Save the file to your desktop

Double click on the XenAppWeb.msi on your Desktop (this install does not require admin rights)

Click Run

If you receive a message that the installer detects a client already on your computer please follow the following steps from Citrix <http://support.citrix.com/CTX901187> You can ignore any files that you cannot find.

The installation will start and you should receive a message that says installation was successful.
